

CSE 299: Junior Design Project

Department of Electrical and Computer Engineering, North South University

Semester: Summer 2026	Section: 03	Weekly Progress: 2	Date: 14/07/2026
Faculty: Dr. Mohammad Shifat-E-Rabbi	Group: 4		

Project Title	FoodForward - A Web Based Food Donation Platform Connecting Donors, Restaurants, and Charities
Members	Tasmia Anam Aurthy Samia Zaman Pushpita Md Belayet Hossain

PROGRESS MADE THIS WEEK

Update	What was prepared
1. Django Project Initialization	Django project initialized with core structure, templates, and static files.
2. Basic UI Development	Created landing page using HTML, CSS, Bootstrap.
3. Database Models	Implemented User, Restaurant, Charity models.
4. GitHub Activity	Initial commits pushed showing active development.
5. Literature Review	Completed and finalized with findings and research gaps.

CURRENT CHALLENGE

The project has entered development phase. The main challenge is integrating backend logic with UI and expanding functionality.

TARGET FOR NEXT WEEKLY UPDATE

1	Implement authentication system
2	Develop donation workflow
3	Add more database models
4	Improve UI/UX
5	Maintain GitHub commits
